Little Child Dies-Clarence Moles Fined-Other Police Happenings.

Manchester Bureau, Times-Dispatch, No. 1902 Hull Street. At a meeting of the Board of Alderme last night Messrs, R. T. Patram and B. Robertson were appointed on the Manchester committee to confer in joint riceting with a like Richmond committee on the subject of annexation.

A full committee is now appointed and eady to listen to any proposals that may be set forth by the committee of the larger city. It but remains now for these committees to meet in joint session and discuss plans, afterwards to be submitted to the vote of the people, for the unnexation of the two cities. Those in favor of annexation need not expect to have everything their own way, for it is said there are still many who question the advisability of the proposed consoli-

New Clear Water Committee.

The Board concurred in the Council's action in discharging the old Clear Water Committee, and appointed Messrs. Abboit and Hanker on the new one. Both of these permeers expressed their hearty approval of any scheme that would tend to effect a better water system and purify the water used by the city.

This is a matter that has long occupied the attention of the city authorities, and the citizens of Manchester no less, and it is fervently hoped by many that the new committee may prove worthy of the responsibility with which they are clothed. Nothing heretofore has come of the many plans raised and discussed; the water is eithly the same as it was ten or a hundred.
